

This support office has been conducting activities through a 10-year donation from one person of 12 million yen per year as the capital fund, together with the donations from many other people.

## Support Office for Children in the Aftermath of the 2011 Japan Earthquake

# “S-Chil”

### What does "S" in "S-Chil" mean?

S originates from the first letter  
“S” in “*sodan*” which is the Japanese word  
meaning “counseling” required after  
the earthquake disaster in March 2011,  
and now it also comes from  
“*seicho* (growth)” and “*shiwase* (happiness)”  
with the aim of supporting the sound growth  
and happiness of children.  
“Chil” comes from “children”.

Even after you have graduated from  
high school or left your hometown, you may  
consult us at any time and from anywhere.

### We serve as counsellors on your

- school life,
- career,
- job,
- future,
- friends,
- family,

etc.

### We also serve as counsellors for parents on

- their own individual concerns,
- family relationships,
- future of their children,

etc.

# Three Principles of "S-Chil"

Tohoku University will provide long-term support for children who lost their parents, loved ones or valuable properties in the Great East Japan Earthquake in the process of their growth.

## Support with a timeframe

As you grow up, you will encounter new environments and relationships and have different problems or concerns over time. Together, let's consider the concerns you have in your present life.

## Support in the same relationship

You will be assigned the same counsellor who will continuously support you to maintain a good relationship.

## Support in consideration of culture

Even after you have left your hometown and wherever you are, we are always here to talk with you while respecting the culture of Tohoku where you were raised.

Graduate School of Education, Tohoku University
